

25 March 2020

Dear Parent / Carer,

At The Cumberland School, we are doing our very best to ensure, where possible, we minimise the disruption to our students' learning and personal development.

Our Master Mission curriculum is an essential part of ensuring all our learners develop into mature and responsible young citizens. Therefore, we encourage all students to continue with completing the Master Mission tasks during the school closure so that they can obtain their badges and certificates upon their return. We ask our parents and carers to also support them in completing this.

To make sure we continue to abide by government guidelines, we have amended some of our Master Mission tasks so that all students can complete these whilst remaining safe at home.

All the new tasks can now be found [here](#). Students are advised to take pictures as evidence of completed tasks.

Please note, we have also shared this news with all students on our DPR.

Thank you for your support,

*J Sultana*
