

13 March 2020

Dear Parents/Carers

You may have seen or heard some information circulating in the media recently in regards to a member of our staff.

As is the case with all schools and workplaces, it is highly likely that anyone who attends public spaces may have direct or indirect contact or exposure to the coronavirus.

Having consulted with Public Health England, we have taken the decision to keep the school open as, at this stage, the risk to staff and students is deemed to be extremely low. The school is cleaned thoroughly every day in line with government prevention and control guidance.

We are in ongoing communication with local health officials and should the situation change we will contact parents immediately.

We wish to assure you that our first priority remains the safety and well-being of staff and students.

Yours sincerely

Omar Deria
Head of School
